

Dear mum and dad ,

I am writing to tell you that I think it would be an amazing idea for you to start to think about taking me to the fair.(that is coming to Clifton very soon)My opinion is that this will make a memorable opportunity to have a action packed family activity. how ever after reading my letter I expect you to change your mind .I hope lots of consideration goes into your thoughts after reading my letter.

My first reason to take me to the fair is my face will raise with joy at the fair you won't have to buy me any toys because I will be having fun on the twirling and swirling and twisting on the twister .Obviously you haven't realised that rides are much safer now. You might be worried that all the classic rides are gone and been forgotten they will be appearing at Clifton fair. How could you resist the stickiness of a toffee apple sticking to your fingers at the very thought of it .

Do you think any child deserves to miss out on this unforgettable experience? My opinion is the fair is crazy crowded and the coolest place to be .at this point you may think you will rob your bank but don't worry you will have a brilliant bargain to think about .every one thinks Clifton fairs bargain is amazing the bargain is five pound for a family ticket which will allow all access all day so why miss out when theres a bargain about ! Only a fool would think that its expensive. Any customer could come at any age but most customers are aged between eight to twenty _ two . (obviously I am the perfect age to go to the fair)

I really appreciate you taking your time to read my letter I hopefully have changed your mind. Please get back to me as soon as posible. I hope you consider carefully what a bargain it would be take me to the fair . I will be terribly upset if you don't let me go to the fair .

Love from Yasmin
Xxxxx
